**Dale Managing Agency Limited:
Syndicate 1729 at Lloyd's**

Energy

Welcome to Dale Underwriting Partners, a leading independent underwriting business operating through Lloyd's Syndicate 1729 and Dale Dual MGU Limited. With an expected total Gross Written Premium (GWP) of £775m in 2025 – comprising £575m from Lloyd's Syndicate 1729 and £200m from Dale Dual MGU Limited – we deliver expert insurance and reinsurance solutions across a broad and evolving range of business lines.

Energy

The Energy portfolio underwritten by Dale Underwriting Partners offers comprehensive protection for the upstream oil and gas sector, covering physical damage, business interruption, and renewable energy risks. With a focus on supporting clients through innovative technology and procedures, we collaborate with companies globally to deliver tailored solutions for independent operators and major firms alike.
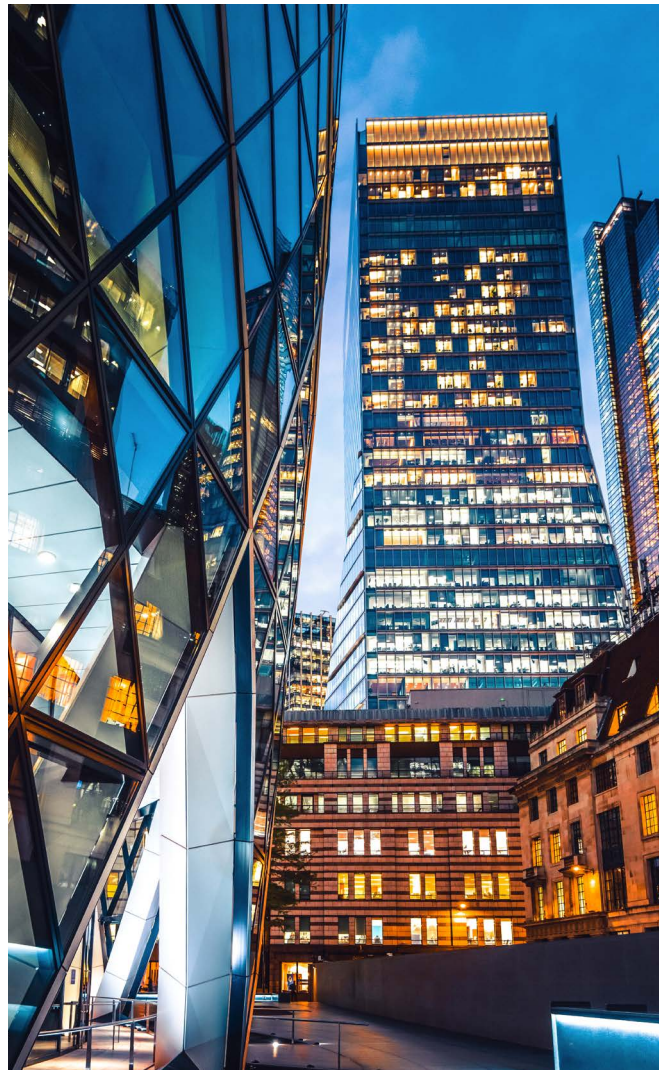

Our Offering:
- Physical Damage
- Construction
- Control of well
- Business Interruption/Loss of production Income
- Renewable energy
- Associated Liabilities

Client Base:
- Independent oil and gas companies
- Drilling Contractors
- Midstream operators
- Major integrated oil companies
- Construction yards

The core business is written on a quota share facultative basis with the ability to offer both risk and catastrophe coverage in the desired regions. Furthermore, with a global drive to reduce carbon emissions we strive to work with companies who are utilising improved technology and procedures to produce affordable, reliable and cleaner energy to support the social and economic goals.

The team have long and valued client and broker relationships that combined with their risk approach provide the most suitable product available. Our portfolio ranges from independent companies through to the fully integrated international firms.

"

We strive to work with companies who are utilising improved technology and procedures to produce affordable, reliable and cleaner energy."
