Healthcare Liability Insurance – Binding Authorities/Line slips:

Many classes of business (excluding hospitals and large clinics) written facultatively are also written under Binding Authorities and Line slips where the risks tend to be smaller in size and/or are perceived to be more benign in exposure. Our portfolio consists of Allied Healthcare, Long Term Care and Clinical Trials/Life Sciences written through highly experienced and trusted MGA or MGU relationships.

We support varying levels of delegated authority under Binding Authorities from Prior Submit programmes to Full Delegation depending on several factors such as the experience, type of exposure and track record of the Coverholder.

Healthcare Liability Reinsurance:

Our Healthcare team provide reinsurance coverage to a wide range of medical professional liability insurers including mutuals, captives, reciprocals, exchanges, trusts, stock companies, private companies and risk retention groups. Coverage is provided to a broad spectrum of healthcare entities including the smaller, single state/regional physician and allied healthcare carriers (including new ventures) to the larger, nationwide, multi-class MPL companies. The majority of the reinsurance business we write is currently focused in the US.

We provide coverage through a variety of structures including proportional and non-proportional such as Excess of Loss and Loss Sensitive arrangements. Our focus is on providing balance sheet protection against varying loss dynamics, including adverse frequency or severity (or combination thereof), significant court awards and systemic/generic losses.

Along with the other areas of Healthcare business we write, our Syndicate is focused on developing innovative reinsurance structures that satisfy the current needs of our existing and prospective client base. One example of this is that Dale Underwriting Partners lead the Lloyd's Medical

Malpractice Reinsurance Consortium which established significant capacity commitment to a new product that is structured to provide significant policy limits to protect a company's assets from a large and unexpected Award, Systemic loss or frequency of high severity claims. Please ask a member of the team for further information.
